Our Mission Statement

Lee County Parks and Recreation Department's mission is to enhance the quality of life in Lee County by providing a broad variety of accessible leisure, recreation, cultural activities and services.

From The Director

This has been some year with a lot of ups and some downs. Budget issues have and continue to be challenging in providing programs, renovating existing facilities, and planning for new facilities. The department has traditionally tried to keep participation fees affordable and has resisted increases. This budget year left the department little choice but to raise fees for programs in order to maintain the quality and quantity of programs offered. Fees and charges are reviewed annually by the Parks & Recreation Advisory Board with recommendations to change fees made to the Board of County Commissioners for approval. The department welcomes your input concerning fees, programs, and facilities.

The department has offered new programming to reach out to more people in our community. Wrestling was offered for the first time this year with a solid enthusiastic group. Basketball and baseball were offered to younger age groups and these programs were well received. The Hershey Track & Field program was a success with over 80 participants.

Some existing programs have seen some significant growth while some long established programs are struggling a bit. The gymnastics program had over 1500 students enroll in classes this past year. The Learn-to-Swim program had over 850 students during the summer season. San-Lee Summer Camp participation was ahead of last year's numbers. Competitive baseball, softball and basketball numbers have been stagnant. Girls' athletics in particular has struggled to gain participation. Staff will continue to seek out programs to involve youth and keep them active. Participation in team sports and group camps offer much to the participant in developing skills, confidence, self-esteem, and discipline.

Facilities also had ups and downs. The long awaited renovation to San-Lee Park's dam and spillway was completed. The various groups involved in the project worked together well and the project was finished under budget. A ribbon cutting ceremony and festival was held to celebrate this milestone. The event was very well attended and well-received by those in attendance. Department staff and volunteers did a great job in planning and implementing the event. The department plans to offer the festival again next spring to kick off the outdoor season. The big down for facilities was the destruction of Buchanan Park from the April 16th tornado. Plans are to have Buchanan back on line and ready to go by the spring of 2012 for the busy summer season.

On behalf of the department I would like to extend a sincere thanks to all our volunteers and sponsors. Without them, we could not do the things we do. Volunteers donated over 8,000 hours this past year which is the equivalent of four full time personnel! There's plenty more to go around for those interested in volunteering. Our sponsors and donors have helped us keep participation costs for programs more affordable. Their continued support is greatly appreciated. Do you have something to offer? Contact us for information about volunteering, becoming a sponsor, or making a donation to Parks and Recreation in Lee County.
